Identification of studies via OpenAlex
Identification
Records identified from OpenAlex
(journal articles, 2018–2025, English)
(n = 23,778 / 2,230)
Records removed before screening:
Duplicate records (n = 2,449 / 8)
Not open access (n = 7,310 / 998)
Open-access records, placed in
random order (n = 14,019 / 1,224)
Records not required after the
quota was reached (n = 13,834 / 1,177)
Screening
Records screened in order
(n = 185 / 47)
Records excluded (n = 64 / 3):
Not a forecasting study (n = 33 / 1)
Classification or anomaly task (n = 12 / 2)
Not a time series (n = 7 / 0)
Review or survey (n = 4 / 0)
Full text not available (n = 3 / 0)
Theory or simulation only (n = 2 / 0)
No out-of-sample evaluation (n = 2 / 0)
Retracted (n = 1 / 0)
Reports sought for retrieval
(n = 121 / 44)
Reports not retrieved
(n = 3 / 0)
Reports assessed for eligibility
(n = 118 / 44)
Reports excluded (n = 18 / 4):
No out-of-sample evaluation (n = 5 / 2)
Theory or simulation only (n = 4 / 0)
Not in English (n = 3 / 1)
Not a forecasting study (n = 2 / 1)
Classification or anomaly task (n = 3 / 0)
Review or survey (n = 1 / 0)
Included
Studies included in the audit
(n = 100 / 40; total 140)
Independently double-coded (n = 18 / 8)
